

# **The Palm Beach Polo Club Dunes Preserve Program**

## **The Palm Beach Polo Club Dunes Preserve**

The Dunes Preserve has brought activity, energy, and a renewed sense of community to Palm Beach Polo.

Many of you have expressed an interest in lending personal financial support to the Dunes Renewal Project. It is to that end that we present several options that will greatly benefit the preserve.

### **Bench Naming**

Each of the sites below will have a bench placed on the overlook bearing the name(s) of the donors. Pictures of various pond sites are printed below. The benches will face the view shown. Each bench costs \$550.

### **Long Pond Facing North**

**Kensington Pond Facing West**

**Windsor Way Pond Facing North**

**Cypress Pond Facing South**

**Shady Oaks Pond Facing South**

**Behind the Bridge South at Shady Oaks Pond**

**Before the Bridge at Polo Club Road**

**Shady Oaks Pond Facing North**

**Bench Plaque**

## **Johnny Appleseed Tree Planting Program**

John Chapman, the legendary planter known as “Johnny Appleseed”, planted apple trees throughout the US and was a leader in the early conservationist movement.

Our goal is to plant 100 trees per year for ten years which will establish a living testimony of your foresight for future generations.

## **Plant a Ficus Tree**

Plant a Ficus on the preserve at \$1,500 per tree. We have planted 25 trees along the border of Stribling Way where so many trees were needlessly destroyed, but the preserve needs many, many more.

## **The Banyan Nursery**

We intend to take cuttings from the Banyan tree at the East gate to duplicate the nursery established on Long Meadow Drive. The intent is to provide future trees for the community and preserve. In addition, the present nursery will be supplemented with nascent trees that are available for purchase at \$1,200 per tree. The goal is to plant five Banyan trees every year.

## **Adopt an Island**

We have learned that our ducks and other waterfowl do not like grass on the islands. Our new islands will be placed without grass (as pictured) in ponds of your choice or ponds designated by the preserve committee. When unoccupied-generally by day-islands will not be easily viewed as they are designed to let water flow over them.

Smaller pond islands are 8ft x 8ft.	\$500
Larger pond islands are 16ft. x 16ft.	\$1,000

## **Friends of the Preserve**

Many of you may wish to contribute funds that will benefit the programs mentioned above. Your contributions will be combined with fellow participants in funds created for each category. Participants may designate a program they wish to endow. If a program is not specified, the funds will be distributed into programs chosen by the Landscaping & Preserve Committee.

I dig the Dunes and wish to become a "Dunes Digger":

"Dunes Digger" Bronze      \$1,000

"Dunes Digger" Silver      \$2,000

"Dunes Digger" Gold      \$5,000

Contributions will not be publicized without the donor's consent.

The Friends of the Preserve will be listed at the entrances to the preserve.

Unfortunately, it was not possible to form a separate 501(c)(3) nonprofit without ceding levels of control and oversight of the preserve to outside established conservation entities. As a result, your gifts will not be tax deductible.
